Presentation to Paul Morphy. The presentation to Mr. Morphy by the N. Y. Chess thib, of the pearl board, the gold and silver men, and he watch, takes place this evening, in the University The presentation of the silver laurel wreath by the Union Chess Club, will be made to-morrow evening, the hotel, corner of Broadway and Eighth street .-The following is a description of the articles to be presented this evening :-

The Chess-men, which are the conspicuous objects of the "Morphy Testimonial," are of the purest gold and glver, and-with the exception of their cornelian pebstals-of those materials alone. In design and execution, as well as in intrinsic value, the set is, so far as we are informed, unequaled—the celebrated establishment in the possession of Queen Victoria, though of similar design, being of inferior proportions. The connoisseur will especially remark the exquisite details of the artist's corception. As Chess is a royal game, the pieces in this superb set are appropriately modeled after a study of one of the grandest historic episodes—the contest between Christianity and Barbarism. "The Reds," or the gold pieces, are highly-finished statuettes, indicating the components of an imperial array in the days when Kings and Queens went forth with their armies, and Bishops, exchanging mitre and crosier for battle-axe and sword, transferred the war of proselytism from the sanctuary to the field. "The Whites," or the silver pieces, in happy contrast, represent the Northern horde which disputed the domination of Theodosius, or, at a later period, for a while withstood the march of Clovis

In detail, the pieces are as follows: The Gold King is a statuette, four inches in height, and weighing three ounces, royal robes gracefully falling over his armor, the crown and sceptre at his feet, by his side an elegant the rear lines by stately Elephants, each bearing an Eas- him and the French army success. more appreciably-five ounces.

The Silver King is a happy counterpart to his Golden adversary. As a leader of the Barbarians, his covering is of ball's hide, and only distinguished from that of his followers by the finer dressing it has received. Disputing the Empire with the leader of the opposing host, he, too, wears an Imperial globe upon which rests those emematic wings with which the Norsemen and the Goths adorn their helmets. The royal emblems lie at his feet, while on his left arm depends a shield inscribed with the d thank motto-Liberty and in his right hand he grasps a warlike brand. His Queen is arrayed in proper character. The Bishops wear winged helmets, and draw swords considerably longer than the Roman falchions of their Christian adversaries, their panoply otherwise according with that of their posts. In proportion and weight, these pieces correspond with those of the other

The Gold Pawns are statuettes, two and a half inches is height, weighing two ounces. In this piece the artist has elaborated the roman soldier—the hemlet, buckher and straight double-edged sword being exact copies lot. A great deal of Eastern capital was sunk in these of those borne by a man-at-arms of the Western Empire. The Silver Pawn is similar in proportion, and a corresponding exact sculpture of the old Visigoth, wearing upon his body the hide and upon his head the horns which he has torn from the wild bull of the Germanian LIVER INVIGORATOR. forest. In the elaborate finish of the historic study, the statuesque proportion, and the exquisite mechanical execution of each piece, the resources of art have contributed most liberally for the honor of

The Board upon which the Gold and Silver Chessmen are to stand, likewise manufactured by Tiffany & Co., is a square of twenty-six inches. The body of the board is of Rosewood, the squares being of Ebony and choice Mother of Pearl. A slightly raised edge, ornamented by a single delicate line of inlaid Silver, surrounds the Board. Just within this edge another similarly fine line, and a third more heavy from an agreeable contrast with the rich color of the wood. Three inches from the edge. four tournament lances, in silver, inclose the chequered field-a square of twenty inches. In each exterior angle formed by the overlapping of the lances, encircled by a laurel wreath of Gold, exquisitely inlaid, are the letters P. M., in decorated cypher. PAUL MORPHY,

A RECOGNITION OF HIS GENIUS AND A TOKEN OF REGARD FROM HIS FRIENDS AND ADMIRERS IN NEW YORK AND BROOKLYN. New York, 1859. Surmounting this plate is a laurel crown in silver, and

beneath it a riband of the same metal is inscribed with "Praliis ex sanguinatis facile princeps." In the opposite border another plate, oval, in inlaid silver, and edged by a trophy of lances, battle-axes,

spears, and pieces of armor, incloses an engraved Sphynx, around which are grouped the names of the Committee of Presentation.

Similarly situated, in the left hand border, a third silver plate, circular, supported by Sphynxes, ornamented with the armorial bearings of the City of New York .-In the opposite border a fourth plate, of the same metal, emblematically delineates the Pyramids, three in number, likewise supported by Sphynxes. The centre pyramid, in sections, commemorates the Chess Champions of all ages, that of the last and greatest filling the apex, as

The Board is so paneled and dovetailed in construction, that no influence of climate or position can possibly affect the integrity of the squares. As a specimen of workmanship, in addition to the felicity of its design the fact that the most skillful artisans consumed six weeks in its manufacture, and another week in polishing it, is pertinent proof of its superlative excellence. Its cost is not far from \$300.

Besides the Chess-men and Board, there is a case of Rosewood, fitted with artistically shaped, velvet-lined niches, for the reception of the set when not in use. The watch to be presented was manufactured by the

American Watch Company, and is a very fine specimen. The Stem or Pendant is exquisitely carved, so as to represent a King's Crown. It is sat round with brilliants,

Instead of the usual Roman numerals on the dial, the hours are represented by the various pieces of chess, finely done in red and black-the Black King standing at twelve, and the Red King at six, the Queens at one and eleven, Bishops at two and ten, Knights at three and nine, Castles at four and eight, and Pawns at five and seven. The cap is engraved with the following in-

The most distinguished lawyers of California have plead at their bar-very successfully-frequently obtaining such a verdict as to fairly stagger them.

THE USE OF LOSSES .- When Dogberry was enumerating his good qualities to the follower of Don John, for which he thought he should be 'suspected,' the pe a fellow that hath had losses."

There of a truth did Shakspeare speak in the queer ficer; more than to be good looking and know the law leaf of a plant, discovered by E. Lyon, a French Botanist, and be rich, was it to 'be a fellow that hath had losses;' in the interior of Asia. It kills all garden worms, roaches, it was next to possessing 'two gowns, and everything bed-bugs, ants, ticks, fleas, moths, &c. It is entirely free

'The' better days' that every beggar testifies he has seen, are never found in the Almanac; they cost Time ust nothing at all. But like losses, they are the best kind of property imaginable. Nobody covets them; nobody steals them; indeed your neighbor rather rejoices than otherwise, since if you did not have them, possibly he might that the apportionment is settled .-Losses are not taxed; it costs you nothing to keep them, so you make more out of your losses than you could out of your gains; for you get sympathy instead of hatred, and your losses take care of themselves. But the chief use of losses is to afford target practice for ill-humor, anything goes wrong, rail away at your losses, and if the for the 'w' will double your losses, upon the principle that everything looms up in a mist.

People who have no losses to bless themselves with should keep a cat, to be kicked, whenever they feel an inclination to that sort of exercise, and many a man has saved a friend, by keeping something that he can abuse when he feels like Nero or the Devil .- Chicago Journal

Since our review of Thursday last the market for it was rapidly becoming gray, but upon the application of this article has been almost entirely neglected, owing to the difficulty experienced in obtaining freight room, only four or five vessels having arrived within the past week, and we have scarcely anything to report in the way of sales. In the absence of transactions the stock of Pale is accumulating in receivers hands, though it is still quite small. Only one or two small lots have sold at \$4 to \$4 50 \$6 bbl. BEEF CATTLE AND SHEEP .- No beeves worthy of report have been brought in for some weeks, owing to which fact mand from butchers, and, for a few droves delivered here, fair prices could be easily obtained. We quote grass fatted brought in sparingly, and are in fair request at \$1 75 to \$2 by the last mail from Europe, combined with the improving 25 each. The receipts for the week have been small, but in the absence of sales the stock in dealers' hands is accumulating, and may be considered fully fair. We quote nominally at \$7 25 for superfine, and \$7 50 for family.

GRAIN.-In the CORN market we have no material change to report as regards prices. The receipts continue small, to which fact may be mainly attributed the high prices at present obtained, as the advices from other markets have been rather unfavorable. For the week the receipts comprise only 3.050 bushels, of which 400 do. brought \$1 06 for prime quality Onslow county, 1,800 do. at \$1 021, and \$50 do., in lots, at \$1 02} a \$1 05 @ bushel-closing at lowest figures. LIME-We note merely a light demand for this article, and a fair stock in dealers' hands. We quote from store at \$1 to \$1 10 7 cask, according to quantity and quality. Molasses-No change to report in prices. For Cuba

there has been a steady demand throughout the week, with sales from store and wharf at 26 to 28 cents & gallon, as in quantity and quality; stock fully sufficient for the demand. POTATOES-The receipts of new crop Irish have been modcrate, and we have to report sales only in the small way from carts at \$1 50 % bushel. A few lots of Sweet have

been brought in, and sold at 75 to 80 cents # bushel. Provisions .- In the Bacon market we have no change of importance to report. The receipts of N. C. cured have been light, and the stock on market has become somewhat reduced; there is, however, only a limited demand, and the transactions for the week have deen confined to small parcels from store at 12 a 124 cents \$ 15. for hog round. The market is very well stocked with Western cured, and, with 111 a meagre demand, has ruled inactive.
